EDUCATION

Chandigarh University   **Punjab**
BE - Computer Science (Internet Of Things)   *Graduation Date: Aug 2022*

WORK EXPERIENCE

Elivaas   **Gurugram, Haryana**
SDE-1   *Jan 2024 - Present*

- Built and optimized multiple B2B/B2C platforms (booking tool, CMS, calendar, onboarding, coupon admin) using *React 19*, *Next.js 15*, *Tailwind CSS 4*, *ShadCN*, *GraphQL*, Framer Motion, and more.
- Delivered a high-performance villa booking platform with 0.62ms load time, contributing to 20%+ MoM revenue growth and improved UX across devices.
- Integrated *Razorpay* & *Cashfree payments*, automated filters, session management, and personalized coupon systems to enhance engagement and conversions.
- Launched an internal reservation platform for sales/agent teams, reducing booking time and improving efficiency by 25%
- Led development of an AI agent assistant using *OpenAI* and *LangChain*, projected to increase productivity and sales by 50%+.

Antino Labs   **Gurugram, Haryana**
Software Developer   *Aug 2022 - Dec 2023*

- Led technology selections that resulted in a 25% reduction in *customer support issues* and a 15% increase in team efficiency, leading to a promotion to project leadership ahead of schedule.
- Served as Scrum lead, showcasing effective Agile project management and technical leadership.
- Engineered robust React JS applications with *Redux* and *React Hook Form* for optimized user experiences.
- Proficiently presented complex concepts like *RESTful APIs*, *SEO*, and *SSR*, contributing to a 30% increase in project efficiency.

INTERNSHIPS EXPERIENCE

HighRadius Technologies   **Bhubaneswar, Odisha**
Software Developer Intern   *Jul 2021 - Jul 2022*

- Developed engaging user interfaces using React, JavaScript, and HTML/CSS to elevate user experience.
- Engineered robust APIs in *Java, Spring Boot*, and *Hibernate*, ensuring seamless data communication.
- Managed databases using *MySQL* for development environments (e.g., SAT, UAT), guaranteeing data integrity.

PROJECT EXPERIENCE

Elivaas

Villa Booking Platform

- Developed a villa booking platform using *Next.js 15* and React 19, integrating GraphQL for efficient API management and precise data handling, serving a user base of 1000+ with comprehensive booking features.
- Enforced coding standards with *Husky* and *Context API* for robust state management.

Jobizo

Healthcare Platform

- Created an *Admin Panel* to centralize content and data management for both web and mobile applications.
- Optimized website performance, reducing load time by 15% and ensuring seamless operation for healthcare recruitment platform.
